

## Power Standards Lab XCT4 Current Transformer Interface Module

### PQube Plug-in Modules and Accessories

Connects directly to current transformer secondary wires.

- Four channels of current monitoring
- External CT input ratio range: 1:1 to 1000:1
- Accuracy:  $\pm 0.1\%$  rdg  $\pm 0.1\%$  FS (plus uncertainty of external CTs)
- Adds current waveforms to PQ events
- Enables power consumption and energy monitoring
- Crest factor typically 3.5 times rated input

<b>Input:</b>	<b>P/N:</b>
1 Amp	XCT4-1A-00
5 Amp	XCT4-5A-00
